PROFILE

A dedicated IT graduate from Laguna State Polytechnic University - San Pablo City Campus with a strong foundation in web development. Proficient in HTML5, CSS/Tailwind CSS, PHP, Laravel, JavaScript, MySQL, and database management. Skilled in GSAP for animations, AI tools for enhanced productivity, and computer literacy for efficient system navigation. Passionate about building innovative digital solutions and continuously improving technical abilities. Eager to contribute to impactful projects and grow professionally in information technology.

EDUCATION

Laguna State Polytechnic University
Bachelor of Information Technology

San Pablo City, Laguna
Aug 2022 - June 2026

WORK EXPERIENCE

Freelance Project - FCOA inc

Full stack developer

- Developed a comprehensive civic organization platform featuring gallery management, donation system, feedback portal, certification showcase, and partner directory using Laravel and MySQL.
- Built a full admin dashboard with account approval system, user management, and customizable content controls for streamlined administrative operations.
- Implemented secure authentication, role-based access control, and responsive UI using Tailwind CSS and JavaScript across all devices.

Freelance Project - Community Management System

Full stack developer

- Designed and developed a Laravel-based community management platform with Python machine learning integration for resident sentiment analysis and ID verification.
- Built a MySQL database architecture for efficient resident data management, complaint tracking, and document verification processes.
- Implemented responsive front-end interfaces using Tailwind CSS and JavaScript, ensuring accessibility across different user roles and devices.

Ollopa Corporation

Web developer intern

- Assisted in developing and improving web-based solutions using HTML, CSS, JavaScript, PHP, and MySQL for company systems and client projects.
- Troubleshoot technical issues and supported system operations, ensuring minimal downtime and efficient workflow for end-users.
- Collaborated with senior developers on database management and UI enhancements, applying practical industry knowledge to real-world applications.
